

# Providing a source of competitiveness

Autonomous  
Decentralized Bearing

## Cut equipment management costs

- Bearing replacement, maintenance reduction
- Reduction of equipment power

Performance  
Angular / Deep groove  
/ Double row / 4-point  
ID 3.175 to 200 mm

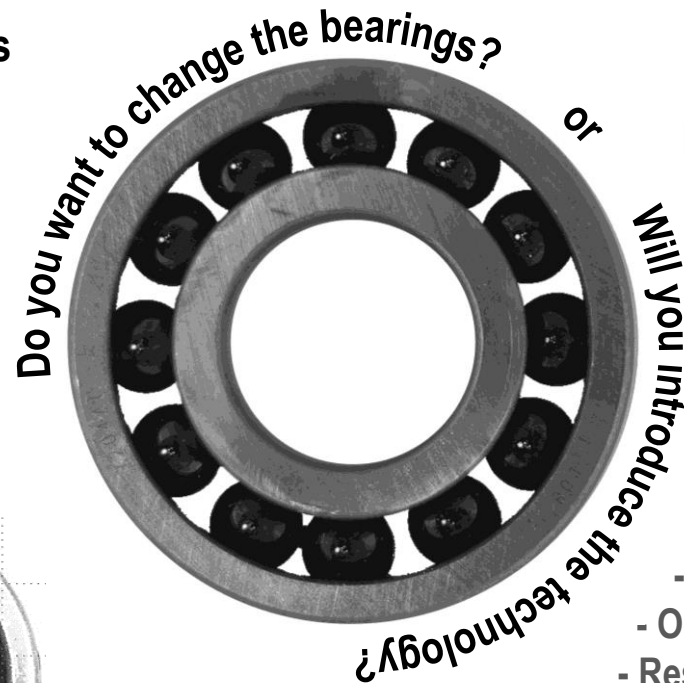

## New products that will be news

- Easy-to-understand tech PR into products!

## Make complaints a chance!

- Shortest solution to failed bearings
- Business that develops measures

## Next 100 years industry

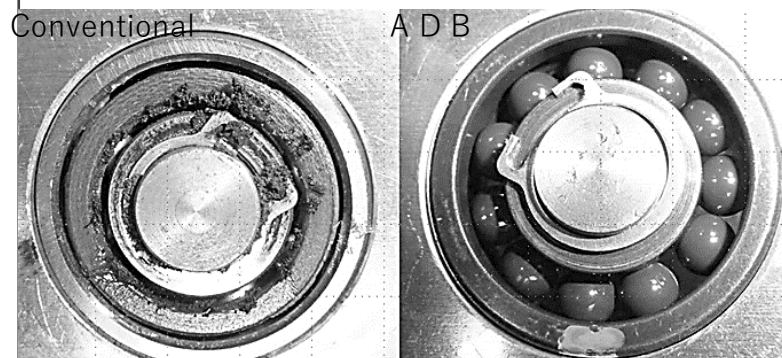

- Bearing companies are longevity companies

## Weapon of product differentiation

- Fuel efficiency is improved by 7.5%!
- DmN 7.5 million!

## To an environmental company

- Wind power: Reverse drive 100 times faster
- Ocean: Water lubrication = no waterproof
- Resources: De-lubricating oil, de-plastic

Transfer technology  
8 US/JP/CN patents
